

*“The Judicial Branch of the Virgin Islands joins the nation in mourning the death of U.S. Supreme Court Justice Ruth Bader Ginsburg. Although best known as a champion for women's rights, Justice Ginsburg promoted equal rights for all Americans as both a lawyer and a judge. She was the epitome of civility, and her maintenance of genuine friendships with her colleagues on the bench, despite often harsh disagreements on legal issues, is something that we all should strive to emulate. While her earthly body has passed, she will live forever not just in the hearts of those who knew her, but also through the work of the lawyers, jurists, and citizens who will be inspired by her legacy for generations to come.”*
